**"Why  
Eden  
Quit"**

By  
Beverley  
Baxter

"To my mind, Eden's resignation was the least worthy action of a notable career . . . In due time he will come back!"—Baxter

Chamberlain — "I may feel as what I'm doing but I must try."

## BY BEVERLY BAXTER

Eden — "Government dogged the new stream of his judgment."

IT SEEMS that one there are many points of similarity between the situation which the members of the Eden Cabinet have involved young men whose popularity had reached fantastic levels. In each case the public was unaware of any impending trouble. King Edward was opposed by one night-year-old Stanley Baldwin, and Eden by sixty-seven-year-old Neville Chamberlain. Both Eden and King Edward had the benefit of Winston Churchill's close advice before taking the final decision, and at such a crisis Churchill attacked the Government and showed his willingness to form an alternative administration. Winston Churchill remains the most brilliant figure of political history—a man who could not judge a winner walk only one horse in the race.

Wondering in the late afternoon how not and there. The British public was stunned by the revelation that their beloved King had put a woman before the throne. Moreover, good and better distribution kept

Churchill — "Through a happy life a wild dream."

passive which Britain had shown to long for all the trouble, and misapprehension of the decision. When Eden's resignation was announced, it was from Berlin, in fact, that Eden was told that his resignation was not in the interest of the British people.

The House of Commons was divided with excitement. Every inch of space was occupied. The benches on both sides of the aisle were full. The House of Commons was divided with excitement. Every inch of space was occupied. The benches on both sides of the aisle were full. The House of Commons was divided with excitement. Every inch of space was occupied. The benches on both sides of the aisle were full.

At 3:45—

At 3:45 p.m., the same hour at which Chamberlain had announced the resignation of Edward VIII, Eden resigned from the House, with his head bowed, and without looking at his audience and without making any statement of any kind. The British people were in a state of shock. The House of Commons was divided with excitement. Every inch of space was occupied. The benches on both sides of the aisle were full.

## Wheat to Flour

Canadians consume nearly ten million barrels of flour a year. Last year the Dominion's flour mills — 347 all told, but 20 of them do three quarters of the work — ground 81,000,000 bushels of wheat. Result, 15,400,000 barrels of flour. The surplus, of course, goes into export. Here, with a camera's-eye view of the process which turns kernels into the stuff that makes a nation's bread.

1. Fight the wheat. A ranchman will  
own the animals in due

(b) The final level: till on the lower valley step.

Chemists check the nucleotide profile content.

P One loaded sample 45 Br of flow 18 knots,  
5 knots, none of load

5. The old getting process is almost 2 milliseconds.  
6. The new is completed every hour.

...I'm sure my ideas will come  
by again soon. Tell me if  
there is any more.

**READ WHAT SONJA HENIE SAYS:**

"I have always admired anyone who is full of life and action. Naturally I admire those who excel in a motor car—and that's why I'm so delighted with my new Dodge! As you would say, 'It's on the feet' in traffic—and you know it's on the feet when you're gliding over the open road. It's so remarkably easy to handle too!"

# "WHY I'M SO CRAZY ABOUT MY NEW DODGE" BY *Sonja Henie* STAR OF 20th CENTURY-FOX "HAPPY LANDING"

**"I GO FOR ACTION!"**

"I GO for action!" says Miss Henie. "That's why I'm so delighted with my new Dodge! As you would say it... it is so 'fast on its feet' in traffic, and you almost seem to float when you're gliding over the open road. And it's so remarkably easy to handle, too! Thank you, Dodge Henie... that's magnificent power from the Queen of Action—the girl whose grace and sass have thrilled more millions than any other sports performer who ever lived. And the new Dodge car? Well, there's no better way to describe them than to say, 'They're Sonja Henie on wheels!' Five minutes in the driver's seat tells you that. For you're

never driven cars that respond to your will so alertly. And "alert" is the word. For that's how easily these new Dodge cars handle... how deftly they turn... how eagerly they answer to the gentle urge of your fingers. Did you say power? Durability? They're both here! For under the hood of these streamlined beauties burns a plant of silent power! Built-in ruggedness in every part! You know, you feel—that in the car and you're in the most impressive powerhouses that ever took a man places and back.

OWNERS OF NEW DODGES—The Dodge that Sonja Henie is driving from Chicago—the National's greatest car performance prize money car!

**THERE ARE THREE DODGE CARS**

one will save you money right from the start! They are built by men steeped in Dodge tradition. Motorists everywhere take their hats off to Dodge dependability, long life and low operating costs—and to Dodge Beauty! Get your Dodge-Deluxe dealer on the phone right now. He will give you all the facts and figures.

Don't let all these great Dodge features scare you a bit about price. In fact, the Dodge Six is priced right down among the lowest priced cars! Then there's the Dodge DeLuxe Six and the Dodge Custom Six, the biggest most luxurious Dodge ever built. Every one of these Dodge cars is built to last.

**DODGE**  
**SWITCH TO DODGE AND SAVE MONEY!**

There is no other more national car than Dodge. Dodge is the only car that is built in the U.S.A. and is sold in every state.

## Now they're installing a tank of non-rust EVERDUR

EVERDUR means hot water and plenty of it. Nobody wants rusty water. So only one way can you have the satisfaction of hot water without the annoyance and expense of rust... and that is with a tank made of metal that cannot rust.

EVERDUR means "non-rust" in such a way that it will stand up to the toughest acid rain, permanent poisons against all rust, and that is with the strength and longevity of steel.

Just pour some steady household water-saving water in this durable metal. Your local dealer or plumbing contractor can tell you all about EVERDUR saving water. Or send us this coupon for full information.

SEND: I am interested in the EVERDUR tank of non-rust metal. Please send me literature and a coupon for a free sample of the paint.

Above, the Standard Tudor Sedan . . . Below, the De Luxe Fordor Sedan

## THE TWO NEW FORD V-8 CARS FOR 1938

These are two new Ford cars for 1938 — the De Luxe and the Standard — differing in appearance, appointments and price — but built to the same high standard of mechanical excellence.

Both are big, impressive cars, and thoroughly modern in appearance. Both have the famous Centre-Poise Ride, Ford Easy-Action Safety Brakes, and the other distinctive Ford features.

Both bring you the basic advantages of the 35-horsepower Ford V-8 engine.

V-type 8-cylinder engines were used only in expensive cars before Ford made them available in The Universal Car. Eight cylinders give great smoothness and flexibility. V-type construction leaves more room for passengers and luggage.

Both new cars are economical to operate. Economy has always been a Ford tradition. The facts of Ford V-8 economy are confirmed by owners, who report 22 to 27 miles per gallon of gasoline. Value is also a Ford tradition.

Both cars, in proportion to price, represent true Ford value. The De Luxe costs slightly more than the Standard but provides extra style. De Luxe closed Sedan body type has considerably more passenger room and luggage space.

More people bought the 1937 Ford V-8 than any other 1937 make. It was a good car. But these are better cars, because Ford improvement goes on constantly. You'll realize that when you see and drive either new Ford V-8 for 1938.
